# Parental Permission to Participate in Host Family Program

The Host Family Program is offered to academy students as a means of providing support outside the school community for students. Families who participate in this program provide a home away from home for academy students. Families may provide home-cooked meals, transportation, shopping, religious activities, or overnight stays as well as helping students adjust to living away from home for the first time. There may not be a host family for all students that make a request. You will be notified if your student cannot be placed with a host family.

I, \_\_\_\_\_, do hereby consent for my child or ward to participate  
parent/guardian  
in the Texas Academy of Mathematics and Science Host Family Program for the 2022-2023 school year. I, as parent or legal guardian of my child, understand that this program is not mandatory, nor based on enrollment at the school and is offered by the school for reasons stated above. I understand that my child participates at his/her own risk and that the university, the academy, and the host family assigned to my child assume no liability for activities related to the host family program.
